Student declaration

I, Mahgoub Adil Ahmed Alhassn, registration number 25/28013, submit MAAAPortfolio for SWE 3409 Individual Assignment 2. The verification code on the About screen and on my handwritten card is MOB-A2-8013.

I understand that the portfolio content must be my own. I will correct any project, skill, or biography text that does not describe my real automation, Python, and cloud work before I submit. I will not present another student's screens, wording, or visual design as mine.

I used Cursor's coding assistant while building the app. The assistance is described in evidence/AI_USE.md. I have reviewed the source, and I am responsible for the submitted app, the APK, the video, and this declaration.
